

# COMBI 1

## HYDROMANN

### COMBI 1

This disc spreader is for all professional users and focuses on environment and economy. It has 3 operation possibilities and various adjustment facilities to enable optimal dosage. The spread width can be adjusted, and spread symmetry can be moved from right to left. The hopper is equipped with adjustable partitions, so that it empties evenly during spreading. The hopper chute is available in different lengths, and can be raised during transport or when emptying the spreader. Various hitches are available for diverse implement carriers.

### Salt and grit Disc-spreader combi 1:

- > Rubber transport belt
- > Manual adjustment of spread symmetry
- > Manual adjustment of spread width
- > Manual adjustment of spread flow
- > Grating
- > Emptying function
